

Workshop on

Computer-Assisted Personal Interview (CAPI) Software

2:00 – 4:00pm, 31 Aug and 7 Sep 2018

Department of Economics, Delhi School of Economics

This is a workshop on how to collect primary data using tablets. The workshop will demonstrate the use of *Survey Solutions*, a freely available computer-assisted personal interview (CAPI) application developed by the World Bank.

The workshop will be divided into two sessions.

Session I (August 31)

- Discussion on advantages and disadvantages of CAPI software vs paper-and-pencil questionnaires
- Demonstration of *Survey Solutions* software using pre-existing questionnaire. We will cover questionnaire design, in-field data entry, server management and data quality checks.

Session II (September 7)

- Work on participant-specific questionnaires using *Survey Solutions*

Please bring the following with you to the workshop:

- Tablet (preferable) or smartphone, running Android 5.0 or later, minimum 2 GB of RAM and 8 GB of storage (at least 1 GB free).
- Laptop with Firefox or Google Chrome or Safari browser (please update to the latest version), and preferably MS Excel and Adobe Acrobat installed.
- (optional) Any existing survey questionnaire that you are considering implementing using CAPI software

Prior knowledge of Stata will be helpful.

The target audience of this workshop is research scholars who have an existing research project for which they will collect quantitative data using questionnaires, as well as scholars who may do such research in the future.

If you are interested in attending the workshop, please sign up online using [this link](#), no later than **Sunday, August 25**: <https://goo.gl/forms/V5n71LLFauwjPg6a2>
